Comments

The Reception Area not private when at desk due to build up in patients and can hear every work and people stand by you writing things, etc. Basically where the line of the floor by wall that's where patients should queue so door way don't get blocked by reception.

The doctor I just saw Dr Hedge didn't want to go through my notes to give me a prescription for my tablets. She told me to go to Reception and fill in a form which takes 3 days to clear.
